| XL | 61-62 CM |
| 2XL(XXL) | 63-64 CM |
| 3XL-5XL | 65-70 CM<br>AVAILABLE IN SPECIFIC MODELS |

## HOW TO MEASURE FOR AXXIS HELMETS

**1. MEASURE:** Use a soft tape measure to measure around the largest part of your head—just above your ears and across your forehead.

**2. VERIFY:** Check the specific model's size chart, as sizing can vary slightly between different lines (e.g., Cobra, Gecko, Draken).

**3. FIT:** The helmet should feel snug all around, with no pressure points. If your measurement is between sizes, it is generally recommended to opt for the smaller size for a secure fit.

**4. CHECK SAFETY:** The helmet should not move excessively when you shake your head, and cheek pads should touch your face.
